Our mission
Our vision
Our values

Siegfried at a glance

Siegfried does matter to customers patients and society – every day, everywhere

Siegfried supplies approx. **200** FDA-approved APIs, thereby acting as a significant source to patients' therapy continuity.

>100 million patients served by Siegfried annually, based on our current portfolio.

This is equal to ten times the Suisse population or five times the population of New York City.

A few **100m** doses of Covid-19 vaccines were manufactured by Siegfried at by the end of 2022.

Having established aseptic fill & finish capacities in record time, Siegfried is a relevant source for vaccines in the global fight against the Coronavirus pandemic.

Our mission: We do matter to customers, patients and society

«With mastery of science and technology, we take the precious innovations of our pharmaceutical customers to industrial scale and manufacture safe drugs for patients worldwide»

Our vision: We aim for industry leadership

«Siegfried is the most trusted partner of the pharmaceutical industry and the global leader in the CDMO space – because...

...we are the strongest team running the most competitive network»

Our values: We strive for outstanding performance

«Our values and leadership principles are the basis to build the strongest team in the industry»

Excellence

«We excel in everything we do»

Passion

«We deeply care ybout what we do and how we do it»

Integrity

«We act responsibly, reliably, respectfully and live up to our own standards»

Quality

«We do it right first time»

Sustainability

«We do not only think about tomorrow, but far beyond»

Our leadership values are the basis to build the strongest team in the industry

Our history
